ملحق أ

الملاحظات	الملاحظة
<p>As stated in the licensee agreement, any changes in the Operating License fees shall be made based on actual changes in the TRC's budgeted cost of regulatory operations (excluding spectrum management cost), but the TRC issued these draft instructions without showing any changes to its costs. On the contrary, the TRC included the spectrum management fees while these fees were excluded as stated above, and in the information memorandum issued in Dec, 2004, which states in Article (5.6.e) that <i>"This fee will recover the economic cost of the operations of the TRC, but will exclude those costs that are properly associated with the initial fee and any costs incurred in the management of the radio spectrum..."</i></p> <p>MobileCom / JT would like to point out that licensees are already paying the spectrum fees and does not understand why the TRC included the cost of spectrum management. Moreover, the TRC should act in a transparent manner and publish its budgeted costs in advance to make it available for all licensees before the end of the TRC's fiscal year and all costs covered from aids and grants to be clearly defined.</p>	<p>JT /</p>

الملاحظات	الملاحظة
<p>% () -</p> <p>2.2</p> <p>..</p> <p>..</p> <p>..</p>	
<p>Neither the Law nor the License Agreement state that the Licensee shall pay any amount before its due date, and also no statements require paying "Down Payments". So JT believes that the TRC does not have the right to hold such a difference and is therefore obliged to return same to the Licensee</p>	<p>JT</p>
